

An Introduction to Emergency Stream Intervention

Friday September 9, 2022
9:00 AM – 3:00 PM

Location: Warren County Municipal Center

1340 Route 9, Lake George NY 12845 (Room 5110)

Concepts Covered

- ➔ how streams function
- ➔ historical perspective of the causes of stream instability
- ➔ overview of an Emergency Stream Intervention project

Supervisors, highway departments, planners, engineers,
and those interested in these concepts are encouraged to attend.

This training is an in-depth presentation building off of the introductory 2-hour program. It is intended as a tool to assist communities to better understand how streams function, why flooding occurs and how to begin addressing impacts to communities. A field component is included in this program, so please be prepared for rain or shine

*There is no cost to attend this training, lunch is provided to participants and
2.0 PDH's are available.*

Please register by Sept 2nd, 2:00 PM
